Explanatory note

The academic discipline "Socio-cultural aspects of migration" refers to the Professional disciplines of the Federal State Educational Standard of Higher Professional Education in the direction of training 51.03.01 Culturology.

The main **goal** of this course is to form an integrated view of the problems of migration in the context of socio-cultural aspects, intercultural communication and a gender approach.

The main **tasks** of teaching this discipline include the following:

1. to demonstrate the interdisciplinary nature of research on migration processes;
2. to identify the main patterns of migration processes in the world and their regional features;
3. to analyze the gender aspects of migration;
4. to describe the role of international organizations related to migration issues.

The practical part of the course includes seminars, which consist of interactive forms: discussions, debates, discussion of read original sources.

After completing the course "Socio-cultural aspects of migration", a student should demonstrate:

- the knowledge of the main concepts;
- skills to study the socio-cultural aspects of migration processes.

This study guide is written as part of the Erasmus+ and Jean Monnet Projects. Educational Module/ "Migration in the EU: challenges and opportunities". The aim of the project is to form a comprehensive view of migration problems, including socio-economic development of the countries of the migration system, cross-cultural communication and gender approach, as well as to attract the attention of students, students of general education institutions and public organizations to the migration problems in the EU.
